

DealerBahn is a web-based equipment finance workflow and collaboration platform that connects lenders, dealers and vendors. The free, fast, powerful network allows dealers to:

- Easily assemble and submit credit applications;
- Connect quickly to your lender network;
- Maintain complete and accurate information about the status of each and every deal.
- Eliminate paper work and costly errors; and
- Increase dealership revenues!

Additional FREE functionality is also available:

### Contract Status

With Contract Status, dealers have immediate and direct online access to all information that you need to close the deal. Your F&I team will spend less time calling and faxing and more time getting deals closed. Our communication tools enable dealers to view and respond to comments from credit analysts.

### Reporting

Grow your business by having clear visibility to the information you need to win more deals. Get reporting that reflects the way your dealership is organized.

### Lender Products and Rate Sheets

Use lender search features to find and view products and prices provided by your approved lenders. Stay up to date on the latest product features and current rates.

### Document Management

Our document management system allows your team and lenders to upload document images and associate them with your customers. Using this feature your team can upload documents required for credit review and receive contracts for customer execution.

### Customer Management

Save and store key information about your customers. Avoid tedious data input activities when you quickly populate applications using stored customer data. Plus, customer management allows document image storage so that you can maintain customer documents in one convenient location.

### Safe and Secure

Your information is safe with us. Our tools require specific user access and offer administrative rights. All of our communication is 100% encrypted. And our security environment is SAS Type II certified. II certified

### No Software, No Servers, No Install or Up Front Fees

- Our application tools are 100% free for dealers.
- We are constantly upgrading the tools you want at no additional cost to you.
