

DealerBahn is a web-based equipment finance workflow and collaboration platform that connects lenders, dealers and vendors. Our tools help lenders:

- Target more profitable deals;
- Improve credit processing efficiency;
- Enhance the capabilities of your existing sales force; and
- Grow distributor relationships.

Whatever your focus, national or regional lender, one or many industry verticals, captive or independent, DealerBahn’s tools provide lenders with a competitive edge.

### Get Into the Flow

Dealers want a one-stop F&I workflow platform. With DealerBahn, there are no more faxes and no redundant data entry on multiple lender web sites. Your participation on the DealerBahn platform ensures that your products are consistently presented to your best dealers. Dealer tools include:

- Customer management
- Applications
- Deal structuring
- Lender search
- Compare lender products and quotes
- Deal status tracking
- Electronic document storage and retrieval

### Grow Dealer Relationships

- Real time process tracking and reporting.... Keep dealers informed!
- Target and segment dealers with product and price management tools.
- Application filters ensure that you see only *complete* applications that fit your business objectives.
- Electronic file management tools allow lenders to receive credit docs and deliver contracts.
- Integrated electronic connectivity to your existing front end credit systems.
- Documented online conversations with dealer F&I teams.
- Reporting tools enable you to track the progress of your dealer relationships and export data to your internal systems.

### Safe and Secure

- Access restricted / User rights administration
- 100% encrypted to prevent prying eyes
- SAS Type II certified

### No Software, No Servers, No Install or Up Front Fees

- Our simple “Success Based” billing ensures that you only pay when you receive or close deals.
- We are constantly upgrading the tools you want at no additional cost to you.
